

The Max-Fan Air Delivery System

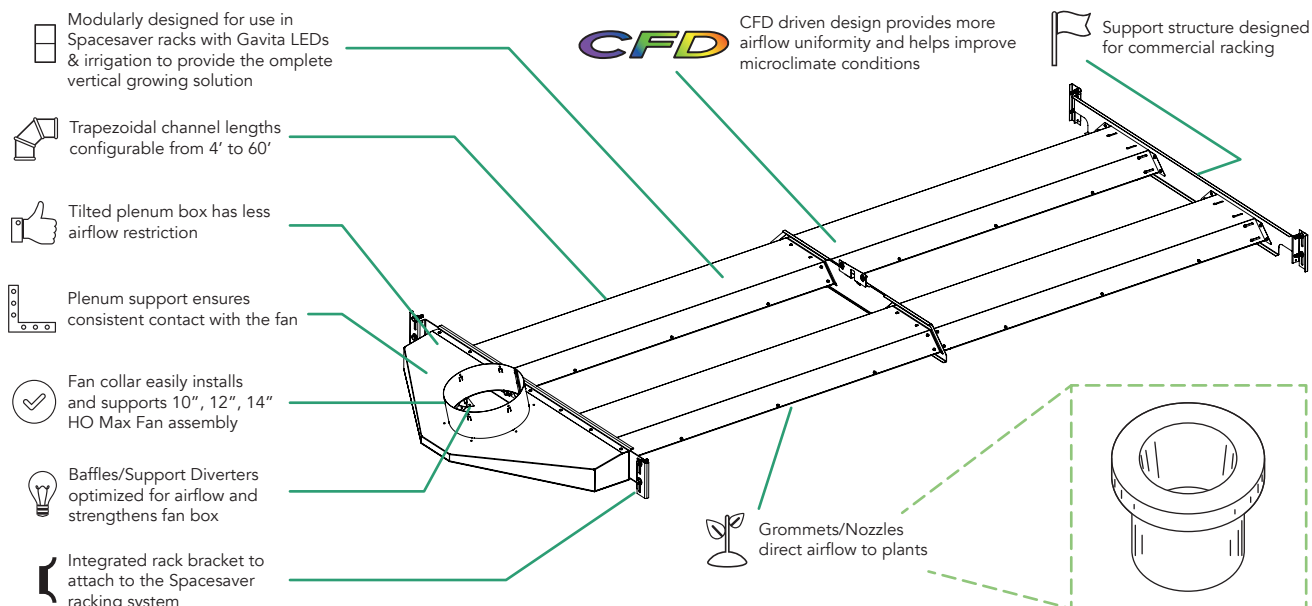

The Max-Fan Air Delivery System (M.A.D. System) is a modular air flow system specifically designed, with Computational Fluid Dynamics (CFD), to deliver airflow throughout the length of SpaceSaver vertical growing systems. The M.A.D. System is able to deliver consistent airflow throughout the length of the canopy to help mitigate harmful microclimates and help keep your plants healthy. Compatible with 10", 12", and 14" HO fans from Max-Fan, the modular system can deliver airflow in lengths of 4' all the way up to 60'.

Features

- Modular design for use in Spacesaver racks with irrigation systems to provide a complete vertical solution
- Easily scalable for lengths from 4' up to 60' in any number of tiers
- Direct fitment with 10", 12", or 14" HO fans by Max-Fans (fans sold separately)
- Bolts directly to SpaceSaver rack systems outfitted with Gavita LED systems
